treatment, where my friends were informed that my chances for recovery were well-nigh hopeless.

"During all those eight years of suffering I failed to obtain any permanent relief. I had practically no appetite at all. I was very weak, was subject to frequent spells of dizziness, my nervous system was all run down, and I was a complete physical wreck. I read of Cooper's preparations in the daily papers, and finally concluded that I would try one or two bottles of the New Discovery medicine to see if it would afford me any relief. I had very little faith that it would, but concluded that it would do no harm to give it a trial.

"The first bottle of New Discovery had."
